## NEXUS TECHNICAL TEAM READY TO TAKE UP THE CHALLENGE

NexusTech, our technical team has started carrying out installation works for home broadband customers as part of its contract with UNN. Members of the team who are based at Annajat Complex have been going out to different sites to do Home Connect. The team comprised of 30 technical and support staff. To further boost their skills and knowledge, a lab zone has been allocated for the team members to undergo in-house training to perfect their installation skills under the supervision of qualified supervisors.

*NexTech team members getting ready for the day's assignment*

*From the comfort of the office*

*... to the field sites*

*....and straight to work*

*The team is ready to serve the customers*

# Ulearn LEARN MORE ABOUT U-LEARN

U-Learn is a Learning Management System which can support our entire learning management processes. With this learning platform, Nexus associates will be able to either pick and choose their training needs or as recommended by their respective Career Coaches. Familiarise yourselves with this new learning platform by watching this video using the link below:
