Officers from AMBD

Antara cabaran bakal dihadapi oleh rakan sekerja Nexus ketika memulakan perjalanan seterusnya ialah merancang kewangan, mencari skim pelaburan yang betul serta menghindari skim penipuan kewangan. Inilah antara yang telah diterapkan semasa sesi taklimat oleh AMBD yang diadakan di Nexus HQ pada 5 Nov, Khamis. Taklimat juga melibatkan perancang kewangan dari Persatuan Perancangan Kewangan Brunei (FPAB). Taklimat dimulakan dengan pengenalan mengenai AMBD diikuti penerangan mengenai laporan kredit dan cara mengelakkan penipuan kewangan. Meja-meja pertanyaan juga disediakan kepada mereka yang ingin membuat sebarang pertanyaan atau nasihat mengenai perancangan kewangan.

Some of the challenges facing our associates as they embark on their next journey are planning and managing their finances and choosing the right investment schemes as well as to avoid from getting involved in financial scams. These were highlighted during a talk by AMBD held at Nexus HQ on Thursday, 5th Nov. The half-day session involved officers from AMBD and planners from the Financial Planning Association of Brunei (FPAB). The talk began with an introduction to AMBD followed by a session on credit reporting and some advice on how to avoid financial scams. Financial Planning Helpdesks were also available to associates who wish to seek advice on financial planning.

PETUA DARI PEMENANG PERTAMA BOOTCAMP STARTUP BOOTCAMP WINNER SHARES HER WINNING TIPS

Jenny Malai Ali (GIG) Ketika menyampaikan idea perniagaan beliau dan menerima sijil selepas diumumkan sebagai pemenang

Pemenang pertama Latihan Bootcamp akan berpeluang mengikuti sesi khidmat nasihat secara individu bersama seorang usahawan yang berjaya, sebagai persediaan bagi meningkatkan lagi idea perniagaan ketahap yang lebih tinggi bagi menarik pelaburan. NexNews membuat temuramah bersama pemenang pertama, Jenny Malai Ali dengan idea perniagaan beliau “GIG”.

The top 3 winners of the recent startup bootcamp will have the opportunity to undergo a one-to-one coaching with Jim as part of their preparations to take their business ideas to the next level and attract potential investors. NexNews spoke to the first prize winner, Jenny Malay Ali whose business idea is the GIG.

NEXNEWS: BOLEHKAH SAUDARI KONGSIKAN PETUA YANG MEMBAWA KEJAYAAN TEMPAT PERTAMA SEMASA PITCH DAY? | CAN YOU SHARE YOUR WINNING TIPS THAT HAVE WON YOU FIRST PLACE DURING PITCH DAY?

JENNY: Berlatih, berlatih dan berlatih. Saya telah mengongsikan idea saya dengan ahli keluarga dan mendengar kritikan pedas dari mereka, kemudian mengubah dan berlatih lagi. Ini memaksa saya menjawab soalan yang tidak dijangka dan termasuk idea dari segi reaksi yang ternyata berkesan. Saya cuba mengamalkan konsep “mari bercerita” yang ringkas sahaja.

Kadang-kala bila kita terlalu menghabiskan masa yang banyak bagi satu-satu idea, ia akan menjadi lebih rumit dan tidak jelas. Saya sedar perniagaan ini masih dalam fasa konsep, saya perlu memastikan ia dapat diterima dengan baik. Ini menunjukkan bahawa idea perniagaan saya masih baru, jadi saya perlu berfikiran betul, rendah diri tetapi penuh keyakinan, dorongan dan berpotensi untuk mengembangkan perniagaan ini dengan jayanya.

JENNY: *Practice, practice, practice. I took every opportunity to share my pitch with members of my family, listened to their brutal feedback, edited, practiced again. Repeat. It forced me to answer questions which I had overlooked and also gave me an idea of reaction - mostly validating, fortunately. I also took the approach of being as simple to understand as possible through more of a 'story-telling' approach to give the idea some context.*

Sometimes when you spend so much time working on one idea, you can overlook the obvious and overcomplicate things. I was also aware that since my business is still in concept phase, I had to get people to buy into 'me', at the very least. To show them that while I'm still very green, I hopefully have the right attitude, enough humility but also confidence, drive, and the potential to be able to develop sound business thinking.

NEXNEWS: BOLEH SAUDARI JELASKAN MENGENAI IDEA PERNIAGAAN SAUDARI IAITU “GIG” | TELL US MORE ABOUT YOUR BUSINESS IDEA, THE GIG

JENNY: GIG adalah landasan bagi menghubungkan pekerja sambilan dengan kerja 'gig' mikro dan makro. Ini memberi peluang kepada pencari kerja 'tidak formal' dalam jangka pendek, sambil mendapatkan pengalaman kerja, mengembangkan kemahiran mereka; terutamanya untuk belia-belia yang masih menganggur. Jangka panjang, GIG berharap dapat mengembangkan program di seluruh negara untuk meningkatkan kebolehpasaran belia-belia pencari kerja tempatan melalui penilaian yang khusus dan perkhidmatan yang bersesuaian. Ia juga berfungsi sebagai ruang iklan untuk sebarang acara atau aktiviti; ini mungkin mempunyai peluang untuk perniagaan mikro untuk mengambil bahagian sebagai pembekal. Pada asasnya, GIG adalah ruang untuk menolong warga Brunei menjana pendapatan!

***JENNY:** GIG is a platform which hopes to connect freelancers with both micro and macro 'gig' work. The idea is to create a space for people to find 'informal' work on a short-term basis, whilst gaining work experience, and developing employability skill sets; particularly for the unemployed youth. Long term, GIG hopes to be able to develop nation-wide programs to improve the employability of our local job seekers through specialised assessments and effective matching services. It also hopes to serve as an advertising space for any event or activity; these may have opportunities for micro businesses to partake in as vendors. Basically, GIG is a space to help our Bruneians make money!*

NEXNEWS: APAKAH PERANCANGAN SAUDARI BAGI MENGEMBANGKAN IDEA PERNIAGAAN LEBIH JAUH? | HOW DO YOU PLAN TO TAKE YOUR BUSINESS IDEA FURTHER?

JENNY: Langkah seterusnya adalah mengemukakan idea perniagaan kepada pihak pelabur untuk mendapatkan dana pembiayaan. Tetapi, sementara itu, mungkin mencuba landasan ini dikalangan rakan sekerja DevCo - terutamanya pencari kerja; sebagai bukti bahawa konsep ini boleh dilaksanakan.

***JENNY:** The next step is to pitch the business idea to Investors to secure seed funding. But in the meantime it would be very interesting to trial the platform with our very own DevCo associates - particularly our job-seekers; as a proof of concept.*
